

JTECH, an HME Company (“JTECH”) is dedicated to the creation and delivery of high-quality products. To ensure continued innovation, we have elected to make some product changes to the products currently known as the Euro or Premium coaster and the EasyVu Guest Tag.

Reasons for these product changes vary, but may include the following: older technology, redundancy of products, market demand for the product no longer justifies maintaining product development or service, the product(s) has reached the end of its natural lifecycle and parts obsolescence.

Product Change Notice
(PCN0303203)

The product change period will vary depending on incoming order volume and will be done as a running change. During this transition period, we will continue to stock the current product versions and all orders placed will receive the current version until stock has been depleted. It is advised that prior to placing any new orders, you contact your [JTECH representative](#) to ensure product version availability.

After the EOS date has passed, the product(s) will be removed from all price lists, removed from JTECH’s website, store and will no longer be available for purchase and will be replaced with the updated products.

For more information on each product, refer to Table 1 & 2.

Table 1. Product change – [Euro/Premium Coaster](#).
