

DURABILITY

The Extreme Coaster Pager is the most rugged of our offerings. Our industry leading technology on the inside is housed with a super durable casing that features a 360 degree rubber bumper that will absorb shock on impact. We also changed the shape and the surface texture to help prevent chips and scratches.

WATER RESISTANCE

We understand that many environments are not ideal for electronics. The Extreme Coaster Pager was designed to not only withstand shock, but to also provide additional water resistance.

FCC LICENSED

Operate legally and without interference with JTECH FCC Licensed & Approved Paging Systems.

The GuestCall[®] EXTREME Coaster pager takes one of our most popular-selling guest pagers up a notch for added durability.
