

Virtual Service Kiosk

QR Code Staff Notification

Improve the customer experience by putting the control in their hands! Simply scan the QR code with a smartphone, select an option that best fits, and a staff member will be notified.

- Increase sales with real-time notifications to staff
- Improve and maintain larger areas with the same amount of staff
- Eliminate need to maintain hardware at multiple locations
- Improve employee satisfaction – larger checks = increased tips
- Increase customer loyalty and positive reviews
- Achieve flexibility per location without complicated reprogramming
- Avoid staffing areas that do not require full time monitoring
- Deploy easily in large indoor/outdoor settings
- Consolidate multiple QR codes into one – notify a pager or open a URL

Virtual Service Kiosk

Implement a QR code where a traditional battery-operated push button is not practical. Whether your guests are poolside, need luggage assistance, or are waiting to get a fresh mani-pedi, the Virtual Service Kiosk has endless uses to serve your guests' needs efficiently and improve staff productivity.

Recommended for use with:
SmartCall Alert Paging System
