THE FILES ARE ALREADY LOADED IN THE ISTATION

These instructions are for back-up in the event the IStation needs to be reset with the Push Button files.

How Re-upload Push Button files to IStation:

- Copy the .csv file into an empty USB flash drive.
- **Insert the USB flash drive into the transmitter (slot next to the antenna, see picture A)**
- Press SETUP, type password: 0573, ENTER.
- Press * until see "Load Button Template"
- Press ENTER (will show the file name on the display)
- Press ENTER, display will show: Load Button Template Continue?
- Press ENTER (will see counter going down to 0)
- Display will show: "Reading Complete" Press ENTER
- Press CANCEL to exit the menu.
- Unplug the power adaptor from the transmitter and plug it back)
- Test the new template pressing any Pushbutton key
