Vuze® Guest Location System

With Vuze guest tracking, you can easily customize the system to improve guest experience and gain valuable insight on traffic.

The Vuze Table Location System from JTECH is a seamless RFID table tracker ideal for restaurants and hotels.

Vuze reporting lets you analyze performance speed and take action where needed. Get dynamic reporting to spot volume trends at a glance.

Guest Location Pagers & Charger

Additional Features

Vuze uses active radio frequency identification (RFID) rather than passive RFID for the most accurate table location available.

Active RFID Guest Tracking

Active RFID systems continuously broadcast a signal to accurately track guests' real-time location.

To-Go Orders

Customers use the same guest tag as sit-down guests, all you have to do is touch the deliver button on the table location display when their order is ready.

Table Location Display

Servers can quickly find guests from a digital layout of the restaurant.

Customized Zones

Create custom delivery zones like "Window" or "Patio" to speed training and avoid confusion.

Dynamic Reporting

Dive into the details to gain more insight on fluctuations, peak periods and percentage of delayed orders.

Promote Your Brand

Easily advertise on your pager with a custom label.
